Author List

Primary Authors

Joshua Corrigan, FIA, FIAA, CFA, BEc, CERA

Joshua is a principal and consultant with Milliman's Australian practice. Joshua is a risk management specialist and an industry leader in the field. He has a deep technical and business expertise in enterprise, market, operational, strategic and emerging risk management. He has worked with clients in risk management applications spanning wealth management, life insurance, banking, superannuation, asset management and energy and mining companies.

Jeffrey Courchene, FCAS, MAAA

Jeff is a principal and senior consultant with the Munich office of Milliman. Jeff's area of expertise is international property and casualty insurance, particularly reserving, reinsurance analysis, mergers and acquisitions, and dynamic financial modeling. Jeff has extensive experience in matters related to both personal and commercial lines of business in continental Europe, the United States, the United Kingdom, and the Middle East.

Andrew H. Dalton, FSA, MAAA

Andrew is a principal and actuary with the Philadelphia office of Milliman. Andrew consults primarily to life and health insurance companies. His professional experience includes work on actuarial appraisals for mergers and acquisitions, asset and liability analysis, cash flow testing, statutory and tax reserve reviews, hedging for variable annuities, and economic capital for life and health companies.

Derek Jones, FCAS, MAAA

Derek is a principal and consulting actuary with the New York office of Milliman. Derek's experience includes due diligence for mergers and acquisitions, financial modeling, funding level estimation for self-insurance groups, loss reserving, ratemaking, reinsurance, and risk-based capital projections. He consults on property and casualty insurance issues to insurers and reinsurers as well as corporate self-insurers, governmental entities, and municipalities.

Philip Simpson, FIA, ASA, FSAI

Philip is a principal and consulting actuary in the London office of Milliman. Philip specializes in life insurance. His consulting assignments include mergers and acquisitions, company reconstructions, new company launches, product design and pricing, and financial reporting.

James G. Stoltzfus, FSA, MAAA, CERA

Jim is a principal with the Philadelphia office of Milliman. Jim consults primarily to life and health insurance companies. His professional experience includes actuarial appraisals for reinsurance, mergers and acquisitions; product development for Long Term Care; asset and liability analysis with emphasis on valuation of fixed income securities and derivatives; cash flow testing; statutory and GAAP valuations; embedded value analyses; claim liability analyses; and other life and health insurance consulting.
