# Approving the New Education Syllabus

- General agreement in Budapest:
  - FMAs are ready to approve the new syllabus
  - No changes to governance
  - Before a final vote, FMAs want to see the details
- Proposed motion distributed on May 24, 2017

# Proposed Council Motion (May 24, 2017)

That Council approve:

1. a revised education syllabus called “2017 IAA Education Syllabus” (this is the same as Part II of Updated IAA Education Syllabus adopted by Education Committee in February 2016), and
2. revised education guidelines called “2017 IAA Education Guidelines

Council also notes that:

3. these revisions will have an effective date of 2021, and
4. there will be no changes to the IAA’s Internal Regulations or any other aspects of IAA governance resulting from approval of the “2017 IAA Education Syllabus” or the “2017 IAA Education Guidelines.”

# Voting on the Motion

- We are ready to approve the new IAA syllabus
- Executive Committee is considering how best to bring this to a vote

# Looking Ahead

- Education is about equipping actuaries – to provide business insights, to apply mathematical, statistical, economic or financial analyses to a wide range of business problems, to evaluate risk and opportunity.
- All IAA Full Member Associations are striving to help their members gain the knowledge to perform their roles, both pre and post formal qualifications.

# Looking Ahead

- How can we work together to improve the abilities of all actuaries?
- Let's share what has worked, and what has not. Let's embrace ideas from each other about what to teach and how to learn.
- While building on the common core that unites us, let's explore our diversity and share our knowledge to help our members achieve their goals.
