8th Global Conference of Actuaries

10-11th March, 2006
Hotel Taj President, Colaba, Mumbai
The 8th GCA being held on 10–11, March 2006 is the 4th one to be held jointly with International Actuarial Association (IAA).
The last few years have seen an expansion in the roles of actuaries as new fields of endeavour open up and new challenges arise in the more traditional fields where actuaries have been working for several years. Furthermore, the ongoing globalisation of the profession is continually opening up new opportunities for actuaries.

Amongst them actuaries have been adapting to changing actuarial governance in several jurisdictions, in the sphere of life insurance, and a shift in the focus of retirement arrangements. We have also seen greater involvement of the profession in the business of general insurance and an increasing recognition by legislators and regulators of the valuable role that actuaries can play in the prudential supervision of such business. Actuaries have also been involved actively in health insurance and health care arrangements in addressing the real social challenges therein.

Globalisation has also spawned a host of opportunities including the evolution of international accounting standards, the quest for a common solvency framework for financial institutions, and an increasing focus globally on compliance and corporate governance. Last but not least globalization presents a tremendous opportunity for India to become the global hub for actuarial services emulating what has already been done in other sectors of the global economy.
The 8th GCA aims to provide a platform for interaction at a global level amongst actuaries and other finance experts on financial and risk management subjects relating to insurance and financial services industry.

We welcome you to the Gateway of India!

**Aim...**

**VENUE & DATES**

**Venue:** Hotel Taj President,
90, Cuffe Parade,
Mumbai 400 005.
Tel.: 91-22-56650808
