

Dr. Svetlana Abdyusheva

Dr. Abdyusheva was born in Ufa, Bashkiria, Russia 1966, received her degree from the Bashkir State University in Ufa and Diploma in Mathematics. In 1994 she defended a Ph.D. thesis (first degree) in Mathematical Modeling of Complex Chemical Reactions. Since 1996 she is a Associate Professor of Mathematical Modeling in the Bashkir State University at Ufa, Russia. Society. Dr. Abdyusheva published articles in leading journals, and is active as a teacher and consultant in Mathematical modeling, Statistics, Optimization and Control Theory, Finance Mathematics, Actuarial Science.

Professor Semyen Spivak.

Professor Spivak was born in Dnepropetrovsk, Ukraine in 1945, received from the Novosibirsk State University, Diploma in Mathematics. He worked in Institute of Catalysis of Siberian Branch USSR Academy of Science, Novosibirsk. In 1976 he defended a Ph.D. thesis (first degree) in Mathematical Modeling of Complex Chemical Reactions. In period 1976-1986 he worked in Research Institute of Petrochemical Plants (Ufa), Senior Scientist. In 1985 he defended Sc. D. thesis (second degree) in Inverse Problems of Chemical Kinetics and Thermodynamics. Since 1986 he is a Professor of Mathematical Modeling in the Bashkir State University at Ufa, Russia. He is the Head of the Chair of Mathematical Modeling. Since 1995 he is the Head of Bashkirian Branch of Russian Actuarial Society. Professor Spivak published many articles in leading journals, and is active as a teacher and consultant in Mathematical modeling, Statistics, Mathematical Theory of Measurements, Inverse Problems, Optimization and Control Theory, Finance Mathematics, Actuarial Science. Professor Spivak is an active member of several professional organizations, in applied mathematics, mathematical modeling, actuarial science.
