Date: 13 August 2013

Subject: ISAP 2 – PC Statement regarding compliance with Due Process

The Professionalism Committee (PC) takes pleasure in confirming to Council that the development of ISAP2 has complied in all material respects with the Due Process for the development of ISAPs. This opinion was based on the work done by the PC task force, who examined in detail the documentation and steps undertaken during the development of ISAP2. The PC also provided preliminary reports thereon to the Executive Committee to allow the approval of ISAP2 to be placed on the 60-Day Council Agenda.

As a consequence of the approach taken for ISAP2, the PC also approved the use of an expedited process, as provided for in paragraph 9.2 of the Due Process, to effect a non-material change to ISAP1 to enable the creation of a Glossary for all ISAPs. The PC also confirms that the development of this amendment to ISAP1 and the creation of a Glossary have therefore also complied in all material respects with the Due Process.

The final PC report will be available on the [IAA website](#).
