### **Draft Statement of Intent to issue an International Standard of Actuarial Practice – Actuarial Services in relation to IFRS X Insurance Contracts (ISAP [4])**

**1. Do you agree an ISAP is needed on actuarial services in relation to IFRS X?**

**Yes**

**No**

**2. Are any of the proposed topics inappropriate for inclusion in ISAP [4]?**

**Yes**

**No**

**If yes, please explain why the particular topic should not be included in ISAP [4].**

**3. What other topics should be included in ISAP [4]?**

*Please cover why you wish guidance in this area and if appropriate provide an example to illustrate the issue. Please note that the ISAP is not intended to address unique, country-specific issues. Member associations and local actuarial standard setting organizations could address such issues by adding guidance to the model ISAP before adoption.*

Nothing in particular.

**4. Please use this space for any additional comments not covered above.**

Depending on the final Standard for Insurance Contracts, further consideration could be necessary whether additional topics should be included, for example, “disclosure requirement of a translated confidence level for the risk adjustment” if the IASB keep it in the final Standard.

**5. Please provide the name of the person completing the consultation response, association and email address for further clarifications (if needed).**
