3. Approval of the Strategic Action Plan to Develop ISAPs

3.1. The Executive Committee will develop and maintain, on a rolling basis, a strategic action plan for ISAPs, for the approval of Council. An IAA Committee, a FMA or any institution may propose the development of an ISAP, in which case the Executive Committee will decide whether it should be recommended for addition to the strategic action plan. In particular, the Executive Committee should consider, in light of all relevant factors in a particular instance, whether it would be more appropriate for the IAA to issue an International Actuarial Note (IAN) under the IAA’s Due Process for IANs, rather than develop an ISAP.

3.2. The Executive Committee can at any time request and authorise the ASC to commence work on an SOI to produce an ISAP with a particular scope and objectives, but can approve an SOI only if Council has already approved a strategic action plan that includes an ISAP with (in outline) the same scope and objectives.

3.3. If the ISAP development process has led to a proposed scope materially different from that contained in the strategic action plan (whether at the SOI development phase or ISAP development phase), then the Executive Committee should communicate this to the Council in a timely manner and seek ratification of the change at the next Council meeting.
