

## Response

This is not the intent of the IASSC. We believe your issue may be addressed with a revision to 2.12 to make it clear that in the context of ISAP1 "Professional Services" means professional actuarial services. For example it might be reworded to:

- 2.1. **Professional services** - Services based upon actuarial considerations provided to a [principal](#) that may include the rendering of advice, recommendations, findings, or [opinions](#).

It is then clear that "based on actuarial considerations" is a required component and not a modifier of opinions, or of "advice, recommendations, findings or opinions"
