Publication of the Month!

April 2001
This offer is only valid until the 27th April 2001

International Congress of Actuaries Papers
Volumes 1–8 (7–12 June 1998)
Publisher’s price: £50; Publications of the month price: £10.00

For all participants, for actuaries who did not attend in person, and also for future generations, the permanent record of the Congresses is found in the printed volumes containing the papers.

On this occasion we are fortunate that so many actuaries have written papers and national reports and offered them for discussion. The number of papers is not a record, but the number of countries from which they have come (48 or so) is higher than ever before. The papers have been reviewed by Professor David Wilkie, Chairman of the Scientific Committee, and his colleagues on that Committee, sorted into suitable sessions, and printed in the eight volumes of the Transactions.
