

IAA Webinar on ISAP 1 (Revised) and ISAP 6
Tuesday, 22 January 2019 at two different times:
12:00 GMT ([click here](#) to check your local time) and 21:00 GMT ([click here](#) to check your local time)

In November 2018, The Council of the International Actuarial Association (IAA) adopted two new Model International Standards of Actuarial Practice (ISAPs):

1. [Revision of International Standard of Actuarial Practice 1 \(ISAP 1- General Actuarial Practice\)](#); and
2. [International Standard of Actuarial Practice 6 \(ISAP 6 - Enterprise Risk Management Programs and IAIS Insurance Core Principles\)](#).

Like their predecessors, both ISAPs are model standards intended for adoption by actuarial standard-setting bodies, as appropriate.

The Actuarial Standards Committee (ASC) of the IAA will host a webinar on **Tuesday, 22 January 2019** to present the key aspects of these two ISAPs to IAA Member Associations and other interested parties.

Considering the wide geographic spread of the member associations, the webinar is offered at two different times during the day to maximise participation. **Links to register for either option are given below.** The IAA invites its Member Associations and other interested parties to join this webinar to get a better understanding of these ISAPs and to raise any questions they may have.

Godfrey Perrott (ISAP 1 Revised) and Al Beer (ISAP 6) will make presentations on what the ISAPs cover and why, and will then be available for questions.

To register for the webinar please click on your preferred option:

[Option 1: Tuesday, 22 January 2019 at 07:00 EST / 12:00 GMT / 21:00 Tokyo Japan Time / 23:00 AEDT](#)

[Option 2: Tuesday, 22 January 2019 at 16:00 EST / 21:00 GMT / 06:00 Tokyo Japan Time / 08:00 AEDT](#)

You may send any questions in advance by e-mail to technical.activities@actuaries.org.

This activity directly supports the IAA's strategic objective 3 to promote the development and issuance actuarial standards in jurisdictions of all Full Member Associations and the global convergence of actuarial standards. To learn more about the work of the IAA in this area, please contact the [Director of Technical Activities](#) at the IAA Secretariat.
