Tender Notice No 61357
Description Tenders are invited for Expert / a management Health Insurance Fraud

Project Description:

I.1 The United Nations Development Program (UNDP) supports the strengthening of national capacities in the Dominican Republic and promotes the scope of the Sustainable Development Goals (SDGs), human rights and gender equity, through of technical assistance in order to achieve sustainable human development. Through the Unit for Sustainable Human Development, UNDP supports research initiatives and programs linked to the human development paradigm, in order to generate knowledge that allows a comprehensive approach to the main challenges of national development. Likewise, the Unit promotes the design and implementation of policies based on efficiency, sustainability, participation, freedom and institutionality in order to support poverty reduction and the social and economic inclusion of the most vulnerable.

I.2 UNDP and the National Health Insurance (SeNaSa) have signed the project No.00094738 Support consulting in the implementation of a fraud prevention system in SeNaSa health care processes with the objective of implementing a fraud detection and prevention system in the health care processes of the National Health Insurance with the conceptual and methodological criteria that guarantee a functional structure of the system, in order to help reduce health spending due to the risk of fraud, maintaining Good relations with health service providers.

For the purposes of this consultancy it is necessary to develop a functional structure that guarantees the efficient operation of the system with its processes and resources involved, from the beginning that a fraud alert is detected, carrying out an investigation with its results, until a final conclusion each case with its corrective actions and consequences, as well as the formulation of a preventive program to avoid or reduce the occurrences.

In this sense, the National Health Insurance requires an individual consultant for the services detailed in these Terms of Reference, with the purpose of Implementing a Fraud Prevention System in the health care processes of SeNaSa

**Description**

Tenders are invited for Actuarial Consulting Services For The City And County Of San Francisco Employees Retirement System.

**Scope of Services**

The firm awarded the resulting contract will provide various actuarial services which include consulting and advisory services, valuation services, experience analyses, and other general duties. The consulting actuary will perform tasks which include, but shall not be limited to, the following:

A. Consulting and Advisory Services

1. Provide actuarial consulting and advisory services. The consulting actuary will provide ongoing actuarial consulting and advisory services on any technical, policy or administrative issues related to the benefit program or funding structure which may arise during the course of operation of the Retirement System. These services may be delivered in meetings or by telephone calls and written correspondence at SFERS discretion. The Retirement System expects these services may include public testimony to the Retirement Board or committee of the Board on any technical, policy, compliance, or administrative issues arising during the course of operation of the Retirement System. The consulting actuary will be readily accessible to the SFERS Executive Director and Actuarial Services Coordinator by telephone within one working day and available for meetings within five (5) working days of a request. The consulting actuary will respond to all e-mail correspondence from the System within two working days. SFERS expects the consulting actuary to attend in person a minimum of four (4) Retirement Board meetings per contract year, including one meeting to review the annual actuarial valuation and one meeting to present the annual economic experience analysis. SFERS also expects the consulting actuary to be available for in person educational discussions with the Retirement Board, committees of the Board, and/or SFERS staff.

2. Prepare various actuarial operating tables and factors. The consulting actuary will prepare operating tables and factors as may be required for operation of the System. These tables and factors include, but are not limited to, mortality tables, option tables for annuitants, present value factors and survivor benefit factors.

**Deadline to submit written questions and requests for interpretation December 3, 2019**

**Response to written questions to be provided to all participants December 6, 2019**
