

**ASSOCIATION ACTUARIELLE INTERNATIONALE
INTERNATIONAL ACTUARIAL ASSOCIATION**

July 23, 2010

International Accounting Standards Board
30 Cannon Street
London EC4M 6XH
United Kingdom

Dear Sir

Re: IAA comments on the IASB Exposure Draft on a *Conceptual Framework for Financial Reporting: The Reporting Entity*

In response to the request for comments on the Exposure Draft on a *Conceptual Framework for Financial Reporting: The Reporting Entity*, I am pleased to transmit on behalf of the International Actuarial Association (IAA) our comments and recommendations.

These comments have been prepared by a task force of the Committee on Insurance Accounting. If, upon reading these comments, you identify any points that you wish to pursue, please do not hesitate to contact the chairperson of that Committee, Sam Gutterman, or any of the other members of the Committee. The IAA will be pleased to develop these ideas further with you.

Yours sincerely

Yves Guérard
Secretary General

**A Commentary on the
EXPOSURE DRAFT ON A CONCEPTUAL FRAMEWORK FOR FINANCIAL REPORTING:
THE REPORTING ENTITY
Released by the International Accounting Standards Board: March 2010**

International Actuarial Association and IAA Due Process

The International Actuarial Association (the “IAA”) represents the international actuarial profession. Our sixty-three Full Member actuarial associations represent more than 95% of all actuaries practicing around the world. The Full Member associations of the IAA are listed in an Appendix to this statement. The IAA promotes high standards of actuarial professionalism across the globe and serves as the voice of the actuarial profession when dealing with other international bodies on matters falling within or likely to have an impact on the areas of expertise of actuaries. The IAA appreciates the opportunity to provide comments on this IASB exposure draft.

These comments have been prepared by the Committee on Insurance Accounting. Our comments are written from the perspective of actuaries involved in financial reporting for insurers and self-insurers around the world, with an emphasis on measurement of liabilities and reinsurance assets related to insured and self-insured exposures. Statements in this letter with respect to industry practices reflect the collective experience of the actuaries who participated in the preparation of this comment letter, which we believe represents an accurate and fairly comprehensive view of those involved in insurance and risk management globally. The members of the Committee on Insurance Accounting are listed in an Appendix to this statement. This statement has also been subject to the due process required for it to constitute a formal view of the IAA, and will be posted to the IAA’s web site.

IAA Comments

We thank the Board for the opportunity to comment on the proposals presented in this Exposure Draft. We believe that the output of the Conceptual Framework project will prove invaluable in future deliberations of the IASB and to others who will benefit from insights provided by the concepts underlying the Framework.

Overall, we agree with the current wording of the ED. In addition, we agree with the first three questions raised in the ED.

Regarding question 4, we agree that adoption of the concepts included in the ED should not necessarily wait for a corresponding standard. In fact, we believe that it is desirable that, where possible, the concepts should be derived/presented first, and the standards should subsequently be derived from the Conceptual Framework. Nevertheless, we recognize that thorough discussion of the development of related standards can provide useful input that in turn can be used to craft a soundly based set of consistently derived principle-based standards.

Members of the IAA Committee on Insurance Accounting
