IAA Governance – Working for a Common Understanding

*Fred Rowley, President
Institute of Actuaries of Australia*

How should this Forum be?

- **Not bound by process or form – driven by the issues**
- **No issues ruled out here**
- **No power to resolve anything formally, plenty of scope to achieve**
- **Diversity welcome**
- **Time Sharing !!**
- **All persons & opinions respected**

Points of View

- Council is a restricted forum and deals with IAA business only
- Presidents have a wider range of issues – some outside IAA scope
- Presidents also have important views on how the IAA operates
- and how effectively
- Lots of material outside IAA scope, SO

Possible Issues for Discussion Now

- 90/60/30-day Agenda process may be necessary sometimes but can be cumbersome (e.g. IAEP)
- Amending motions during Council has some disadvantages (e.g. AAA motion)
- Meet before or after Council?
- Strategy before Governance?
- Is there a document on how IAA works?
- Presidents vs Council Delegates
